

TESTIMONIAL

Dr. Ashutosh Sharma

I have had the pleasure of knowing Dr. Ashutosh Sharma, through events organized by Codeblu Foundation, of which I am the founder.

While I am aware he is a Doctor who has graduated from one of the finest medical schools in Mumbai, India ; what has interested me more is his ability for lateral thinking.

I met at a Biomedical Hackathon several years ago, where he was part of a unique medical invention. This clearly showed his entrepreneurial spark. He has since been part of multiple open mic events for doctors where he has lit up the event with stand up comedy apart from also his poetry and music performance.

He has also taking up the responsibility of organizing the social media campaign for the foundation and is helping other young doctors become aware of holistic wellness. I wish him all the best in his personal and professional journey. I am confident he will make a great coachee and hopefully go on to help many others by principles of coaching that he will imbibe.
